

Reliance Cement Company Pvt. Ltd.

Sustainability Policy

Principles of Sustainability are integral to our business strategy and flows from our Vision Statement. We are committed towards sustainable development and the "Triple Bottom Lines", meaning continuous improvement in economic, environmental and social performance of our Business.

We recognize that in our business processes, efficient utilization of natural resources & environmental protection, post mining care, culture of operational safety, employee's health and community care initiatives are of material importance to establish, operate and maintain a sustainable and competitive business.

We also believe that accountability and transparency to our stakeholders to be the prime elements in our social responsibilities. All our discussions, consultations and engagements with the stakeholders will embrace these values to ensure incorporation of constructive opinions in our business plans.

To achieve our sustainability goals, we shall implement specific action plans in all spheres of our activities which will be periodically reviewed for their relevance and effectiveness in the context of rapidly-changing business environment. We shall also put in place appropriate practices to ensure adequate governance and disclosure.

Sumit Banerjee
Exe. Vice Chairman
